

# Personality Prediction System through CV Analysis

# Objective

- To develop a system to provide a more effective way of short-listing the candidates.
- To conduct online aptitude and personality test
- To produce ranking decisions that would have relatively higher consistency than those of human experts.

# Abstract

- This system will help the human resource to select right candidate for desired job profile, which in turn provide expert workforce for the organization.
- This system will focus not only in qualification and in experience but also focuses on other important aspects, which are required for particular job position.

# Benefits for Society and Environment

- This system can be used in many business sectors that may require expert candidate.
- This system will reduce workload of the human resource department.
- Admin or the concern person can easily shortlist a candidate based on their online test marks and can select an appropriate candidate for desired job profile.
